Community Care Fund: Introduction

The Community Care Fund (CCF) is a trust fund established in early 2011 under the Secretary for Home Affairs Incorporation Ordinance (Cap. 1044) with the Secretary for Home Affairs Incorporated as its trustee. Its main objective is to provide assistance to people facing financial difficulties, in particular those who fall outside the social safety net or those within the safety net but still have special circumstances that are not covered. In addition, the CCF may also consider introducing programmes on a pilot basis to help the Government identify those measures that can be considered for incorporation into its regular assistance and service programmes.

The CCF has since 2013 been integrated into the work of the Commission on Poverty (CoP). The CCF Task Force, set up under the CoP as chaired by the Chief Secretary for Administration, is responsible for advising the CoP on the CCF's various arrangements (including investment, finance and administrative operations), as well as the formulation of assistance programmes, the co-ordination and overseeing of the implementation of assistance programmes, and the evaluation of their effectiveness.

Community Care Fund: Operating Principles

The operation of the Community Care Fund (CCF) is guided by the following principles:

(1)

building a caring culture in society by gathering the efforts of various sectors of the community and encouraging the better-off to contribute;

(2)

programmes should be people-oriented with assistance directly provided to beneficiaries; administrative costs or involvement of implementing agencies should be minimised though the need for non-governmental organisations' help to reach out to target groups outside the existing service network will not be precluded; programmes should be multifarious in nature; and the vetting procedures should be streamlined to ensure cost-effectiveness;

(3)

programmes should complement the assistance and services provided by the Government or other charitable funds; duplication of efforts should be avoided as far as practicable; and

(4)

operation of the CCF is mainly be funded by investment returns on the seed capital, but the seed capital may be deployed in accordance with the principle of financial prudence in response to needs.

The target beneficiaries of the CCF are those facing financial difficulties and in need of assistance.

The Government has injected \$5 billion and \$15 billion into the CCF in 2011 and 2013 respectively. Besides, the CCF has accepted around \$1.8 billion donations. As at end March 2019, the balance of the CCF is around \$19.553 billion.

Community Care Fund Task Force: Terms of Reference

(1)

Advise the Commission on Poverty (CoP) on the Community Care Fund's various strategies and arrangements (including investment, finance and administrative operations), as well as the formulation of assistance programmes (including target beneficiaries, assistance amounts, handling of cross-sectoral issues and setting priorities);

(2)

Co-ordinate and oversee the implementation of assistance programmes and review their effectiveness, as well as advising the CoP on the incorporation of programmes into the Government's regular assistance programme and service;

(3)

Maintain close liaison with and provide mutual support to other Task Forces/Working Groups under the CoP, and report to the CoP on its workplans and progress as and when appropriate; and

(4)

Collaborate with the CoP and its other Task Forces/Working Groups to prepare for the annual CoP Summit for reporting the work progress of the CoP and engaging the public and various sectors in the community to take forward poverty alleviation work.

Community Care Fund Assistance Programmes – Introduction

Since its establishment, the Community Care Fund (CCF) has launched 47 assistance programmes covering the medical, education, welfare, home affairs and housing areas for various target beneficiary groups including children, elderly persons, persons with disabilities, patients, new arrivals and ethnic minorities. The total commitment is around \$9.5 billion. So far, more than 1.68 million cases have benefited under these programmes. People outside the existing safety net or the coverage of the Government's short-term relief measures have been identified and provided with assistance. So far, 13 effective programmes have been incorporated into the Government's regular assistance programmes and eight programmes have been completed.

In 2018, the Commission on Poverty approved two new assistance programmes under the CCF, including Provision of Subsidy to Needy Primary and Secondary Students for Purchasing Mobile Computer Devices to Facilitate the Practice of e-Learning and Pilot Scheme on Subsidy to Purchase and Construct Modular Social Housing. The CCF has also enhanced or extended several programmes so that the assistance can be provided in a more effective manner.

Assistance Programmes Incorporated into the Government's Regular Assistance Programmes

The Community Care Fund implements measures on a pilot basis to help the Government identify those that are effective for incorporation into its regular assistance programmes. So far, 13 programmes have been incorporated into the Government's regular assistance programmes. Details are set out in the following pages.

Way Forward

Over the past eight years, the Community Care Fund (CCF) rolled out various assistance programmes in response to the need of people in the community in a caring, flexible and innovative manner. In addition, through the continuous review and evaluation mechanism under the CCF, relevant Government departments/organisations responsible for implementing the programmes could draw on experience gained and collect data as soon as possible to determine which programmes need to be revised or extended, or have been proven effective for consideration of incorporating into the Government's regular assistance programmes.

The CCF will continue to plug the gaps in the existing system and, taking into account the views of the public and stakeholders, launch more programmes to provide appropriate assistance to the underprivileged and low-income families.
