and it creates synergies together with the two other existing CLRs in the same district.

Voiceover:

The Sham Shui Po East CLR covers approximately 3 600 square feet which is well-equipped featuring with a shared living room, shared pantry, dining area, study room, children's play area, washing machines, shower rooms,

and other facilities. These facilities meet the daily needs of “subdivided unit (SDU)” households.

This CLR supports all age group members in SDU households by providing homework guidance services and living information. SDU households can also sign up for the courses by accessing to the “ERB Training Net”. The CLR also provides computer courses for young members. Their animation coursework is engaging. Our youth volunteers teach members coffee brewing methods. Everyone gets to know each other and exchange ideas in a relaxed setting strengthening their sense of belonging to the community.

The Chief Secretary for Administration, Mr. Chan Kwok-ki:

CLR is a targeted poverty alleviation project launched by the current-term Government focusing on supporting SDU households by providing additional living space, community support, and community sharing resources for SDU households. Special recognition goes to the China Merchants Group for providing this rent-free venue with management fees waived and covering all

fitting-out costs, giving full support to the launch of this CLR. I would also like to thank Pok Oi Hospital's support for maintaining year-round services of this CLR, providing additional living space for grassroots families in the district as well as facilities, and services. The HKSAR Government will keep promoting tripartite collaboration among the Government, the business sector, and the community to launch more CLRs to benefit more grassroots families and improve their living environment and enhance their sense of well-being. The Sham Shui Po East CLR is expected to serve at least 500 SDU households, totaling about 80000 attendances annually.
